School of Medicine

**Clinical Science,
Technology and Medicine
Summer Internship Program**

Awarded to:

Hermione Wu

Program Core Values

Diversity
Collaboration
Co-production
Inclusivity
Curiosity
Excellence

in recognition of accomplishments achieved during the Clinical Science, Technology and Medicine Summer Internship at the Stanford University School of Medicine. Between June 22 and July 2, 2026 our program participants gained hands-on experience with clinical and life-support skills. Having received direct mentorship from attending physicians, ePatients, design-thinking experts, and medical students from Stanford University, our program participants produced a capstone project that embodies the core values at the Stanford Anesthesia Summer Institute.

Sachin Mittal, MD

Clinical Assistant Professor
Assistant Director,
Stanford Anesthesia
Summer Institute

Larry Chu, MD

Professor
Executive Director,
Stanford Anesthesia
Summer Institute

Aileen Adriano, MD

Clinical Associate Professor
Assistant Director,
Stanford Anesthesia
Summer Institute
